Friday 10:00 to 12:00 (break for lunch) 1:00 to 3:00 Basic Woodturning

Presented by Lyndal Anthony from Dubuque, Iowa. Students will learn how to use a rough turning gouge to turn a piece of wood round and straight. Next, you will use a spindle gouge to do a cove (concave radius), then a bead (convex radius) and then go from a bead into a cove. With these techniques, you will be making a carver's mallet to take home with you.

Class size limit 6

Cost per person \$45

Friday 12:30 to 2:00 Assembly Techniques

Presented by Dave Kettunen from Weston, Wisconsin. Have you ever wondered where to start with your clock assembly, how to square things up and keep walls straight up and down? In this class you will gather around Dave as he demonstrates assembly techniques and explains all those things and more.

Class size limit 12

Cost per person \$15

Friday 12:30 to 2:00 Intarsia Basics

Presented by Joe Adams from Dyersburg, Tennessee. Learn basic intarsia techniques for cutting, shaping and fitting - plus hints on wood selection. If you have always wanted to try intarsia this is the place to start!

Class size limit 15

Cost per person \$10

Friday 2:30 to 4:00 Fine Tuning Wooden Gear Clocks

Presented by Rick Bartels from Prairie Du Chien, Wisconsin. Have you made a wooden gear clock and now you want it to run and keep the correct time? Rick will share tips and hints for adjusting things to get your clock running smoothly.

Class size limit 20

Cost per person \$10

Friday Classes continued

Friday 2:30 to 4:00 Cutting Other Materials on a Scroll Saw

Presented by Matt Gatchell from Hartland, Wisconsin. Cutting wood is fun, but did you know you can also cut many other materials on a scroll saw? Matt will share some special tips and techniques for sawing a variety of other materials such as Plexiglas, corian, metals, paper and veneer (yes, veneer is wood, but it takes special handling.)

Class size limit 25

Saturday 9:30 to 11:00 Why Do Contest Judges Need a Flashlight?

Presented by Rick Hutcheson from Grimes, Iowa. Have you ever second guessed a contest and wondered why a project won first place? All of the projects look pretty good from a distance so in order to separate out the winners the judges must look them over very closely. That's what the flashlights are for! Rick will explain what the judges are looking for and explain why glue squeeze out or a run in the finish can make the difference between a first or second place ribbon!
